A WHOLE NEW **ATTITUDE**

Introducing Edge Products' A2 in-cab controller, the most powerful and comprehensive aftermarket electronic device for any vehicle. The A2 allows access to on-the-fly adjustment of 5 power levels on the Juice module and completely replaces conventional gauges.

The A2 also offers state-of-the-art GPS navigation technology to get you from place to place with 3-D mapping and a touch screen interface. Coming soon is a wireless backup camera option so you can see what's behind you as well as where you are going.

Displays current power level, EGT, Boost and 6 other parameters on one screen

3-D view clearly displays route in easy to follow format

WORKS WITH ANY EDGE JUICE MODULE

AWARD-WINNING TOMTOM® GPS SOFTWARE WITH MAPS OF ENTIRE U.S. PRELOADED*

TOUCH SCREEN GAUGES DISPLAY OVER 20 DIFFERENT PARAMETERS AVAILABLE FOR VIEWING

ADJUST POWER LEVELS ON-THE-FLY

DISPLAYS HORSEPOWER, TORQUE, 0-60 AND QUARTER MILE TIMES

DISPLAYS AND CLEARS CHECK ENGINE CODES**

IN-CAB CONTROLLER

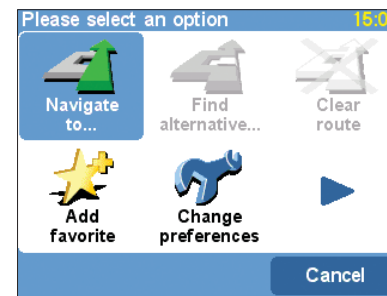

- Clean and easy to navigate user interface
- Display up to 20 parameters in real time for maximum monitoring and safety
- Adjust power levels on-the-fly with the push of a button
- Fast touchscreen setup means the A2 works with any Juice module
- Set alerts for Speed, Boost, EGT and transmission slip
- Store and view max values for multiple parameters including Boost, EGT, Horsepower, Torque and 0-60 and Quarter Mile times
- Choose colors and themes for day and night modes
- Large color screen means easy to view gauges
- Built-in dyno displays horsepower and torque in easy to view graphs

GPS NAVIGATION

- Award winning TomTom Software
- Active route guidance provides spoken and visual prompts
- Displays time to destination, distance to destination and estimated time of arrival
- Automatically reroutes for missed turns
- Includes all major points of interest so finding airports, hotels, food and fuel has never been easier
- Choose voice accent, gender and language
- Includes active external antennae for incredibly fast satellite lock and reception even in obstructed urban areas
- USB enabled for easy map upgrades

Perform and view 0-60 and Quarter Mile performance tests

Clean and easy to navigate user interface

* Canadian maps available. Not all features available for every make and model vehicle. See Features list for specifics. Featured screen shots shown as examples only, actual numbers on your vehicle may vary. **This feature is only available with the Juice Platinum TomTom is a registered trademark of TomTom B.V. The Netherlands.

THE ULTIMATE **IN-CAB DISPLAY**

BACKUP CAMERA COMING SOON

- Camera communicates via wireless signal to the A2
- Easy installation - Wireless means there are no wires to run from the camera into the cab
- Multiple mounting options

Camera option allows you to see what's behind you and what's not
